## Our Vision

To be a global leader in the , recognized for innovation, superior quality, and sustainable growth. We aspire to shape the future of construction and manufacturing through advanced technologies, safe and efficient operations, and strategic partnerships that deliver long term value to our customers, employees, and communities.

## Our Mission

We are committed to delivering the highest quality steel products at competitive prices, supported by reliable delivery and personalized customer service. Through strong partnerships with our customers and suppliers, ethical leadership, and continuous improvement, we strive to maintain industry leadership, ensure safety, and empower our people with advanced technologies and training to be the supplier of choice in every market we serve.

## Our Goals

01

### Industry Leadership

Lead the steel industry through innovation and quality.

02

### Customer Satisfaction

Deliver reliable solutions that exceed customer expectations.

03

### Continuous Improvement

Enhance operations using advanced technology and skilled teams.

04

### Strong Partnerships

Build lasting relationships based on trust and integrity.

05

### Sustainable Growth

Promote safe, efficient, and sustainable steel solutions.

## About Us

Founded with a clear vision to shape the future of the steel industry, AURA STEEL is a leading company specialized in providing high-quality steel solutions that meet the demands of modern construction and industrial projects.

With a strong management team and advanced technologies, we are committed to delivering excellence, reliability, and innovation in every product and service we offer.

Our philosophy is built on trust, precision, and progress, ensuring long term value for our customers, suppliers, and partners.

By combining expertise with innovation, AURA STEEL continues to build a stronger, safer, and more sustainable future truly shaping the future in steel

## Our Core Competencies

At AURA STEEL, we deliver complete structural steel solutions covering every stage of the project lifecycle. Our services begin with advanced engineering and detailing using industry-leading software such as Tekla Structures and SAP2000, ensuring accurate 3D modeling, connection design, and fabrication drawings. We manufacture precision-engineered structural steel components using premium-grade materials and strict quality standards, supported by a reliable supply chain with comprehensive QA/QC documentation. Our certified installation teams then execute safe, efficient, and timely on-site erection, guaranteeing structural integrity, operational excellence, and successful project delivery from concept to completion.

## WHY CHOOSE AURA STEEL

At Aura Steel, we understand that every project presents unique engineering challenges and tight delivery schedules. Our strength lies in our highly experienced engineering and technical team, capable of analyzing complex requirements, providing practical solutions, and overcoming project challenges with efficiency and precision. Combined with our commitment to quality and execution excellence, we ensure every project is delivered safely, on time, and to the highest international standards.

-  **Expert Engineering & Technical Team**  
Skilled professionals delivering smart solutions for complex steel projects.
-  **Problem-Solving Expertise**  
Efficient engineering solutions that overcome challenges with precision.
-  **Fast-Track Project Specialists**  
Proven expertise in delivering accelerated projects on schedule.
-  **On-Time Delivery Commitment**  
Reliable execution with strict adherence to project timelines.
-  **Quality Without Compromise**  
Certified quality standards with rigorous QA/QC at every stage.

## OUR COMPETITIVE ADVANTAGES

Our commitment extends beyond manufacturing steel structures we build long-term partnerships through trust, innovation, and exceptional performance. Every project is managed with precision, transparency, and professionalism to ensure outstanding results and sustainable value.

### What Sets Us Apart

Extensive experience in PEB and structural steel projects.

Complete solutions from design to installation.

Skilled engineers and certified installation teams.

Strict QA/QC standards for consistent quality.

Flexible production with cost-effective solutions.

Innovation, reliability, and customer-focused support.

## Our Core Competencies

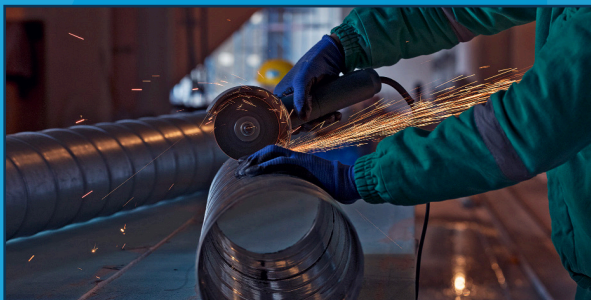

### Architectural Steel Works

Glazed Steel Structures & Atriums | Tensile & Fabric Canopies  
Architectural Façades & Skylights

### Steel Structures

Pre-Engineered Buildings (PEB) | Heavy Industrial Structures | Steel Bridges & Platforms  
Space Frames & Trusses | Steel Towers & Masts | Walkways, Catwalks & Ladders  
Pipe Racks, Equipment Supports | Steel Sheds & Warehouses

### Steel Fabrication

Steel Doors & Louvers | Fences & Gates | Handrails & Guardrails  
Stainless Steel Works | Decorative Metal Works | Steel Furniture & Fixtures

## QUALITY & SAFETY COMMITMENT

All works are carried out in full compliance with internationally recognized quality and safety standards, including:

ASTM • SBC • AISC • AWS D1.1 • ISO 9001:2015 • ISO 45001:2018

## **EXECUTIVE MANAGER'S MESSAGE**

## EXECUTIVE MANAGER'S MESSAGE

At Aura Steel, we believe that every successful structure begins with a strong engineering vision, precise planning, and an unwavering commitment to quality.

Our mission is to provide reliable and integrated steel structure solutions, covering engineering design, detailing, fabrication, supply, and erection. We combine technical expertise with practical execution to deliver safe, efficient, and cost-effective solutions that meet our clients' requirements and exceed their expectations.

Time is one of the most critical factors in every project. At Aura Steel, we place a strong emphasis on timely delivery, effective coordination, and rapid decision-making. We are specialized in fast-track projects and are fully equipped to manage accelerated schedules without compromising quality, safety, or engineering standards.

We are committed to maintaining the highest standards of professionalism, integrity, and operational excellence throughout every stage of our projects. Our success is built on strong partnerships, continuous improvement, and the dedication of our experienced team.

As we continue to grow, Aura Steel remains focused on innovation, speed, reliability, and building long-term relationships with our clients and partners.

KINGDOM OF SAUDI ARABIA

# JAX Film Studios

 **SCOPE**  
Design Fabrication Erection

 **LOCATION**  
RIYADH, SAUDI ARABIA

## PROJECT DETAILS

Aura Steel delivered the complete structural steel package for three advanced soundstages at the JAX creative district in Riyadh long span truss halls engineered for modern film production, with service catwalks suspended directly below roof level for lighting and rigging access. The frame was analysed and optimized in SAP2000 to approximately 1,000 tons across the three buildings and engineered to Saudi Building Code (SBC) wind and seismic requirements. Lightweight AAC roof and wall panels complete the envelope with the acoustic and thermal performance the studios demand, while base plates and steel-to-steel connections were verified in RAM Connection and IDEA Statica from the governing load combinations.

# Decorative Shed 01-FB Offices Z2

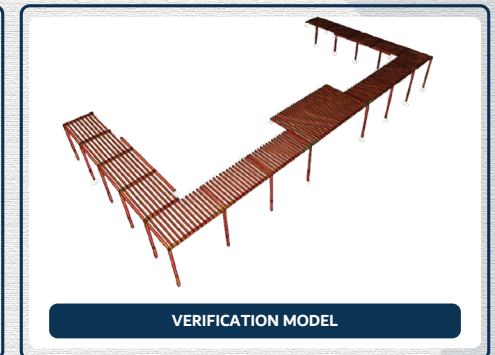

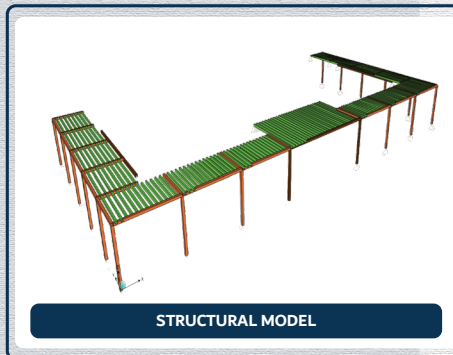

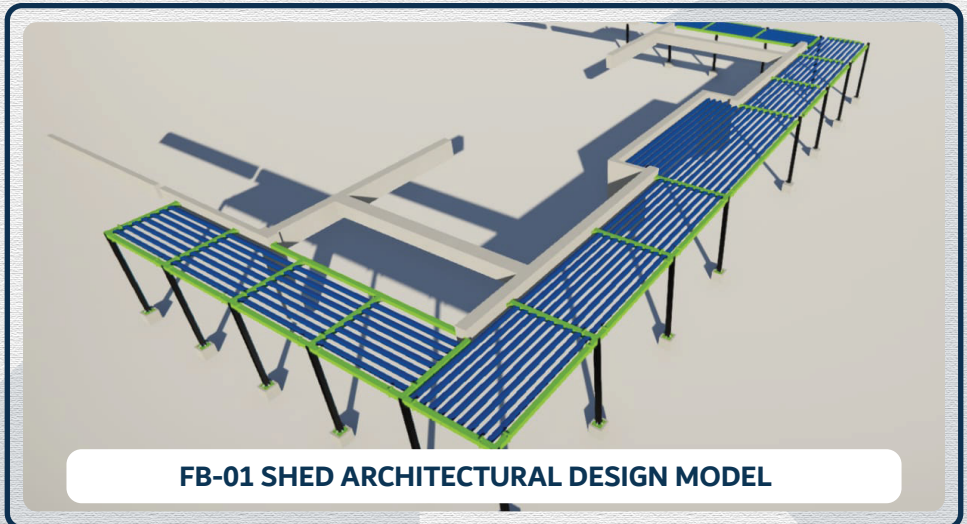

**SCOPE**  
Design Fabrication Installation

**LOCATION**  
Sharma, Tabuk - NEOM

## PROJECT DETAILS

Design, fabrication and installation of a distinctive decorative shed serving the 22 offices at NEOM's Sharma site a sculptural steel frame where architectural expression and engineered performance meet.

The frame is clad with sculpted GRC panels that blend into the surrounding landscape, while aluminum sections add a sleek, corrosion-resistant finish with minimal maintenance. The structure was modelled in SAP2000 to meet the architectural intent, with connections designed through RAM Connection, HILTI and IDEA Statica from the governing load combinations - then fabricated and installed to NEOM's exacting standards.

# Warehouse Facility

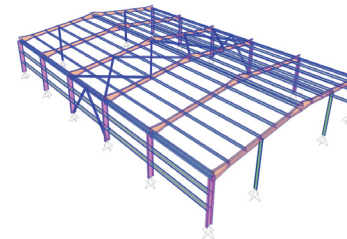

**SCOPE**  
Design Fabrication Erection

**LOCATION**  
Riyadh, Saudi Arabia

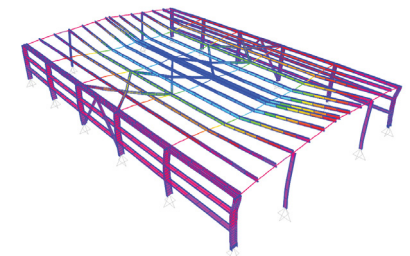

## PROJECT DETAILS

A closed storage facility on a 20 x 30 meter footprint, structured on a hot-rolled steel framework engineered for strength, stability and long service life under demanding daily use.

The building is fully enclosed with 5 cm sandwich panels across walls and roof for effective thermal insulation and a clean, modern appearance, and fitted with a steel roll-up shutter door for smooth goods movement. The result is a secure, durable and adaptable storage solution suited to industrial, agricultural and commercial applications alike.

# ATC Tower - Visual Control Room VCR

**SCOPE** Design Fabrication Coordination | **LOCATION** Restricted

## PROJECT DETAILS

A hexagonal steel structure forming the Visual Control Room (VCR) at the summit of an Air Traffic Control tower - its 360-degree panoramic glazing engineered for completely unobstructed sightlines over the airfield. Inclined columns, horizontal bracings and ring beams resist the high wind loads acting at altitude, while the roof platform carries MEP equipment behind perimeter safety handrails. A fully modular design allowed precision fabrication in the workshop and fast, safe assembly at height - with shop drawings revised and coordinated directly between the detailing team and the factory floor.

# King Salman Air Base Terminal Shades

## SCOPE

Design Fabrication Installation

## LOCATION

Riyadh, Saudi Arabia

## PROJECT DETAILS

Aura Steel delivered the decorative steel canopy shades for the terminal buildings at King Salman Air Base a series of monumental gateway and entrance pergolas that frame the terminals with a distinctive latticed steel grid, finished in sandstone-toned GRC to blend seamlessly with the surrounding architecture. Each shade is built from a precision grid of primary beams and diagonal infill members, engineered to span the terminal forecourts while carrying the GRC cladding system. The structures were modelled and analysed in SAP2000, detailed for fabrication, and installed with base plates and connections designed to the governing wind loads combining bold architectural expression with the durability the desert climate demands.

1. Transmittal Code: Your Information [1], Approval [2], Checking [3], Review and Comment [4]

2. Action Code: Approved [A], Approved as Noted [B], Revised and Resubmit [C], Rejected [D], For Information [E]

(1) Code to be entered by contractor (2) Code to be entered by Engineer

Submitted by: A.W. Siddiqui

Signature: [Signature]

4. Engineer's Review Comments (attach comments sheet if needed)

Name: **Tanveer A. Zeya** Signature: [Signature] Date: **18/1/23**

5. Engineer's Representative comments

Name: **Waleed** Signature: [Signature] Date: **19/1/23**

**dar**

Project: Z2 (ADVCO)

Date: 18/1/2023

**Pre-qualification Submittal for Aura Steel Co. (Z2-ADV-CON-GN-DOC-PQD-0012-00)**

The Contractor is to fulfill and provide the below mandatory document:

- SASO certificate - as applicable.
- VAT Registration.
- Contractor shall use the latest approved forms and formats for all submissions.**

**Status Code: Code "B" (Contractor may proceed upon above document submittal)**

**Tanveer A Zeya**

**Waleeldin Tammam**

## Transmittal of Documents

Date: 26/6/2024

Transmittal Ref.: Z12-2030-AED-TRA-DARH-0210

Transmittal Rev.: 1

Project No. & Title: Z12 Project

Package No.: 1

Employer's Representative: **mace** Consultant: **dar** Contractor: **ASECO**

To: DAR

From: MACE Group

We are transmitting herewith the listed below documents / samples, for the indicated necessary action:

1. Subject Description: Supplier Prequalification for Aura Steel Co. (Steel Structure Works) for Sample Warehouse Facility

2. Area of Application: Design, Supply & Installation of Steel Structure Works

3. Transmittal Details:
